Beskrivelse

This environmental wagon for 2 people meets all the requirements when working with toxic and harmful substances in the workplace.

Our environmental wagon is furnished in environmentally and cleaning friendly materials and has a special floor plan, with 2 sections. One section is intended for entering with dirty work clothes.
Here there are lockers for dirty clothes and from here you enter the shower. The employee can wash the hazardous substances etc. off here, and can then step out into section 2 which is the clean zone.

The wagon contains a refrigerator and is equipped with several sockets so that there is space for, among other things, a microwave, coffee machine etc. It is also possible to close off the dining room so that a "clean zone" can be created. A table and chairs for 5 people are included.

The wagon is built from the best materials and has hygienic smooth surfaces that are easy to clean.
